

Laws protecting citizens from unwanted solicitation via telephone wires should be strengthened - not weakened. New Jersey has some of the toughest laws in the country. I support acting Governor Codey and the continuation of our "Do Not Call" laws. The law gave us the freedom to CHOOSE whether or not we are interested in receiving unsolicited phone calls. Without the Do Not Call list, I am unable to make this choice. Telemarketers should be happy to know not to waste their time and expense on me.
